Welcome to your new vocational school! This lesson gives orientation about the school's site, helps to distinguish parts of different buildings and its surrounding areas. Let's have a look around - so that you are able (in a near future) to explain and describe other visitors where to go – and what can be found.

1. Map of the School Site

Where do you think finding these locations on the map?

MITTE

2. Building Parts

What do you think describes this building correctly?

The main building

The main building – named „Building A“

|  |  |
|--|--|
| The main building has got a <i>historic/ modern/ ancient/ residential</i> architecture.                          |  |
| It has got a <i>gable/shed/flat/hipped/mansard</i> roof top.   |  |
| One side of the building consists of <i>octagonal/ rectangular/elliptical/round</i> large plastic frame windows. |  |
| The wall at the window side is clad with <i>brick-, wood-, concrete-, marble-</i> plates.                        |  |
| At the front side of the building you can see a large <i>chimney/ artwork/ logo/ balcony</i> .                   |  |
| The building has got five <i>storeys, stages, floors, layers</i> .   |  |
| A <i>balcony/ canopy/ roof/ gutter</i> protects the main entrance against rainfall.                              |  |
| This building is a <i>typical industrial/ residential/ historical</i> building                                   |  |

|   |  |
|---|--|
| This building is in the near of <i>air/ sports/ agriculture</i> field.  |  |
| In the front you see an <i>ashbin / gable/shed/flat/hipped/mansard</i> roof top.  |  |
| The main entrance is an <i>octagonal/ rectangular/elliptical/round</i> large plastic framed doors.  |  |
| The walls of the building are red <i>brick, wood-, concrete-, marble- and green</i> plates.   |  |
| You can read "Sporthalle" above the entrance, that means <i>sportsroom/ gymnasium / fitness hall</i>  |  |
| The building has been probably built in the <i>20<sup>th</sup> / 30<sup>th</sup> / 60<sup>th</sup> / 80<sup>th</sup></i> decade of the last century |  |
| If doors can be opened in both directions they're called <i>swing-doors / two-way doors /</i>   |  |
| This building is a <i>typical industrial/ residential/ historical</i> building  |  |

The main entrance of the gymnasium

|   |  |
|---|--|
| The main building has got a <i>historic/ modern/ ancient/ residential</i> architecture.                 |  |
| It has got a <i>gable/shed/flat/hipped/mansard</i> roof top.  |  |
| In the centre of the building there is a <i>glasshouse/ bio house/ greenhouse /woodblock</i> staircase. |  |
| The wall at the window side is clad with <i>plain bricks, woods, green-, marble-</i> plates.            |  |
| At the front side of the building you can see a large <i>chimney/ artwork/ logo/ balcony</i> .          |  |
| The building has got two <i>storeys, stages, floors, layers</i> .                                       |  |
| This building is <i>opposite / above / aside / under</i> the main building                              |  |
| Our class has got <i>nothing / some classes / a lot</i> to do with this building                        |  |

MITTE

The classroom building – named „Building B“

|  |  |
|--|--|
| This building contains a lot of <i>restaurants / bars / swimming pool / workshops</i> .            |  |
| It has got a <i>gable/shed/flat/hipped/zig-zag</i> roof top.                                       |  |
| It has only got <i>one / two / three</i> floors.   |  |
| The walls of the building are made out of <i>green/ red/ white/ yellow</i> bricks.                 |  |
| Its architecture follows the design of a typical <i>school house / factory / skyscraper</i> .      |  |
| There are workshops inside of <i>car mechatronics / nursery nurses/ carpenters / plumbers</i> .    |  |
| This building is <i>opposite / above / aside / under</i> the atrium with a certain water-fountain. |  |
| Do you think this is a <i>nice / ugly / interesting / disgusting</i> building?                     |  |

The building with workshops – named „Building M“

## Inside the main building

What do you see here?

Inside the main building – the foyer“

Inside the main building – coffee mashine

stairway, waste-container, artwork, school canteen, fire cabinet, fire distinguisher, staff toilet, first aid sign, stair case, way down to the basement, glass door, swing door, caretaker's office, teacher's room, bar table, wooden bench, lighting, ... ?

### 3. Describing the way

MITTE

How would you describe the way from ...to ... explain your neighbour the way without telling him the destination. Use the given expressions like:

go straight on/along/down, follow for ...meters/until, turn left/right, take the next, go past / through / towards, cross, is between, on/at the corner, in front of, behind, beside, next to, near, ...

1. From your classroom → to the gymnasium.
2. From the caretaker's office → to the Take-away "Pommes & Frites" (Café Kitsch).
3. From the public parking → to the school's administration office.
4. From the main entrance (Building B) → to the next possible smoking area.
5. Where to park your motor cycle?
6. Where to find the teacher's staff room?
7. Where to find the next student's toilet?
